# Lab 06 - Task Flow Design

Course: Canva Design Masterclass (C156) Version: v1.0 | 30 September 2026

## Scenario

Map how a marketing team requests, reviews, revises and approves a social graphic.

## Objective

Model a visual-production workflow with clear actions, decisions and end states.

## Supplied image files

- flow-reference-05.png
- flow-reference-13.png

## Detailed procedure

1. List the actors, start trigger, major actions, review decision and two possible outcomes.
2. Create a landscape Canva Whiteboard or diagram page.
3. Use distinct shapes for start/end, action and decision nodes.
4. Connect the main path from request to approved export.
5. Label both outcomes from every decision and add one revision loop.
6. Assign an owner to each major action.
7. Trace every branch and correct dead ends or ambiguous connectors.
8. Export the completed flow as JPEG.

## Evidence to retain

One labelled task-flow JPEG with a verified revision loop.

## Acceptance criteria

[ ] Every decision has labelled outcomes.

[ ] Every branch reaches an end state.

[ ] Connectors do not cross unnecessarily.

[ ] Ownership is visible for each major action.

## Reflection prompts

- Which decision most improved the message or focal hierarchy?
- Which visible design decision most improved the audience's understanding?
- What source, permission or provenance evidence must accompany the finished image?
